Agenda:

- Update on HIV
- Living with HIV today
- How can we increase testing?
- What can we do to help combat HIV stigma?

Who should attend?

This event is open to all and we encourage clinicians and non-clinicians to attend.

Medical advancements have led to longer and healthier lives for individuals with HIV in the UK, as well as the ability to prevent the transmission of the virus. However, HIV still faces stigma and misunderstanding.

Join us for the celebration of **World Aids Day 2023**, where you can enhance your understanding of HIV, listen to the stories of individuals living with HIV, and discover how you can contribute to the Surrey HIV Action Plan. **Your participation will help** combat the stigma surrounding HIV in Surrey.
